I do not think that para 5 of the Ship requires a personal examination by the Senior Surgeon himself that is required is a certificate of fitness" to be granted by him after satisfying himself on the point either by an examination himself or by one of his subordinates.

The modification proposed by Dr Smyth seems, however, to be free from the objection above stated, & to be

unobjectionable.

Perhaps Mr Bhabha (whose notice it is that is under address may be asked if he has any objection to the modification

Sir,

I have the honor to invite the attention of Government to Notification No 52 dated 26th January wherein it is required that applicants for Government scholarships in Medicine and Engineering shall forward with their application certificates of physical fitness from the Senior Surgeon

2 This order involves me in a great deal of irksome and unnecessary work Any boy who fancies he is likely to get a scholarship comes to me with a chit from his Principaland demands a physical examination and certificate One boy wishing to have a shot both at Engineering and Medicine in the hope of getting one or the other, wanted of course two certificates Having neither time nor patience for this sort of thing I had the boys examined this year by Dr Arumugam Moodaliar, (whose certificate seems to have sufficed) But he has quite enough to do without this totally unnecessary work Dr Arumugam I

am happy to sa has got a conscience which means that ever certificate costs him a o hour hard work r fanc , when the notifica ion as originall issued a medical exa ination meant a pleasant word or two with the applic nt and a casual application of the stethoscope - bu things re quite changed now and no edical officer deserving of the name grants certificate now without a laborious examination so to order edical Officers to grant such certificates now a a s is quite a diffe - ent matter fro what it used to be

3 But as I have said it is unnecessar and wh should edical Officers be obliged o grant certificates to private persons who will probabl no even make use of them this occurs over and over again A boy thinks he will try for a scholarship gets examined and then changes his mind

What is necessary is this - a candidate should get a medical certificate from an edical man possessing a recognised degree or diploma in m aicine; after overnment have selected suitable candidates let these can idates be examined b the senior surgeon or b co petent officer deputed b him should one or all be reject d overnment has onl to take up the list again and select others - who can be examined in the same wa and so on till finall candidates suitable in all respects shall have been selected

explains that this arrangement involves a deal of irksome and unnecessary work for the candidate & he therefor suggests that the rule may be so modified as to require a candidate to produce with his application a medical certificate from any medical man possessing a recognised degree or diploma in medicine, the Senior Surgeon or a competent officer to be deputed by him examining only the candidates so selected by Govt, ~~the selection being repeated as many times as may be necessary~~

2 It is observed that the present rules do not necessarily re

quire a personal examination of candidates by the Senior Surgeon himself. The final certificate must be given by him, but there seems nothing to prevent its being based upon a detailed examination either by himself or by one of his ~~Subordinate~~ Assistant officers As, however the Suggestions made by the Senior Surgeon ~~place the matter beyond any doubt~~ ~~and are~~ is conducive to convenience, the Govt of H.H. the Maharaja will be pleased to accept the same, ~~and direct their adoption by~~ the I.G.P. of Police is requested to submit a draft of a rule to be substituted for the present Rule 5 of the Rules governing appointments in the Police Department.
